

# MSS®-Foam Acidic

## Acidic Foaming Cleaner

### Features

Foam Acidic is a liquid acidic cleaning agent used in foam cleaning of floors and equipment in food production facilities. Foam Acidic is very strong acidic and has high oil and protein dissolving and heavy dirt removal properties. It is especially used in cleaning smoke rooms and very dirty places (sausage boiling tanks and frying {roasting} tanks). It does not damage surfaces such as acid-resistant stainless steel, plastic and ceramics. It is also suitable for aluminum, copper and their alloys thanks to the special inhibitors it contains.

**Composition:** Cationic surfactant, organic and inorganic acid, inhibitor and solvent, 30% <phosphoric acid.

**Total Acidity:** 10.0±0.5ml

**Physical Properties:** Brown clear liquid

**Density:** 1.00±0.01 gr/cm<sup>3</sup> (at 20 °C)

### Usage and Amount

After a good pre-rinse at 40–60 °C for cleaning coarse and heavy dirt, it is applied to the surface manually at the same temperature at a concentration of 0.5–2.0%, in foam cleaning marinas at a concentration of 2.0–5.0%, in high-pressure marinas at a concentration of 0.2–1.0%. After waiting for 10–15 minutes on the surface, the foam should be rinsed with water at 40–60 °C.

**Concentration Determination;** Foam Acidic concentration is calculated by the titration method. 10 ml of bath solution is taken into an Erlenmeyer flask. 3–4 drops of phenolphthalein are added to it. It is titrated with 0.1 N NaOH.

Concentration (Foam Acidic) = .....Consumption (ml) x ..... Factor

Factor (by weight) = 0.10

Factor (by volume) = 0.09

### Storage

Storage should be stored in a cool and dry environment, and should not be stacked more than two canisters on top of each other. Shelf life is two years from the date of production.

### Security Symbol

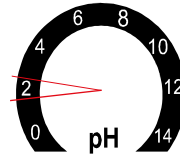

### Food Hygiene

ISO 9001 : 2000  
ISO 14001 : 2004  
ISO 22000  
HACCP / TS 13001  
OHSAS 18001 / TS 18001

Sağlık Bakanlığı onaylıdır  
TSE (TSEK)  
Standartlarına göre üretilmiştir.

### CLEANING COLOR CODE

C: Korozi

R 36/38 Irritating to eyes and skin.  
S 24/25 Avoid contact with eyes and skin.  
S 37 Wear suitable protective gloves.  
S 39 Wear protective glasses and a mask.  
S 50 Do not mix with chlorine

**Product Code:** MSS60047

**Consumption Quantity:**

**Packaging Type:** 20 L (25,4 KG)
